youtube responsive, HTML, CSS, HUGO, hugo authors, gohugo, hugo cms, Markdown"
pdfname: "markdown-syntax"
---
```

This article offers basic Markdown syntax that can be used in Hugo content files, also it shows
whether basic HTML elements are decorated with CSS like figure.

Blockquote

Blockquote sample

The blockquote element represents content that is quoted from another source, optionally with a citation which must be within a `footer` or `cite` element, and optionally with in-line changes such as annotations and abbreviations.

Blockquote without attribution

> Tiam, ad mint andaepu dandae nostion secatur sequo quae.
> **Note** that you can use *Markdown syntax* within a blockquote.

Blockquote with attribution

> Don't communicate by sharing memory, share memory by communicating.
> — <cite>Rob Pike[^1]</cite>

[^1]: The above quote is excerpted from Rob Pike's [talk](https://www.youtube.com/watch?v=PAAkCSZUG1c) during Gopherfest, November 18, 2015.

figure

Figure (image insertion) playing with text !

Tables

Table:

Left-Aligned	Center Aligned	Right Aligned
col 3 is	some wordy text	$1600
col 2 is	centered	$12
zebra stripes	are neat	$1

| Left-Aligned | Center Aligned |

```
| :-----------: | -------------- |
| col 3 is     |        $1600 |
| col 2 is     |          $12 |
| zebra stripes |          $1 |
```

PS: align attribute works fine but it is obsolete.

Tables aren't part of the core Markdown spec, but Hugo supports supports them out-of-the-box.

```
  Name | Age
--------|------
   Bob | 27
 Alice | 23
```

Inline Markdown within tables

```
| Italics   | Bold     | Code   |
| --------  | -------- | ------ |
| *italics* | **bold** | `code` |
```
